

```
[00:00:00] Simulation Start
[00:00:01] Actor Użytkownik initiates interaction
[00:00:02] Sending message: logowanie jako kucharz()
[00:00:03] :Kucharz receives message
[00:00:04] Executing authentication procedure
[00:00:05] Authentication successful -> return true
[00:00:06] :Kucharz sends message to :Przepis
[00:00:07] Message: dodanie nowego przepisu()
[00:00:08] :Przepis receives request
[00:00:09] Creating new recipe object
[00:00:10] Preparing recipe data structure
[00:00:11] :Przepis sends message to :Baza danych
[00:00:12] Message: zapis do bazy danych()
[00:00:13] :Baza danych receives request
[00:00:14] Executing database insert operation
[00:00:15] Data successfully stored
[00:00:16] :Baza danych returns confirmation
[00:00:17] :Przepis receives confirmation
[00:00:18] :Przepis returns result to :Kucharz
[00:00:19] Operation completed successfully
[00:00:20] Simulation End
```

```
[00:00:00] Simulation Start
[00:00:01] Actor Użytkownik initiates moderator interaction
[00:00:02] Sending message: potwierdz uprawnienia()
[00:00:03] :Redaktor receives authentication request
[00:00:04] Checking moderator privileges
[00:00:05] Authorization successful -> return true
[00:00:06] :Redaktor sends request to :System
[00:00:07] Message: przeglądaj komentarze()
[00:00:08] :System receives request
[00:00:09] Forwarding request to :Komentarz
[00:00:10] :Komentarz retrieves comment list
[00:00:11] Returning lista komentarzy()
[00:00:12] :System receives comment list
[00:00:13] Displaying comments to :Redaktor
[00:00:14] :Redaktor sends command
[00:00:15] Message: usuń komentarz()
[00:00:16] :System processes delete request
[00:00:17] Forwarding command to :Komentarz
[00:00:18] :Komentarz marks comment as deleted
[00:00:19] Updating comment state
[00:00:20] :Komentarz sends query to :Baza danych
[00:00:21] Message: odczytaj dane()
[00:00:22] :Baza danych executes query
[00:00:23] Returning updated data
[00:00:24] :System receives confirmation
[00:00:25] :Redaktor notified -> komentarz usunięty()
[00:00:26] Simulation End
```
